

Madison, Wisconsin July 29th, 2024 – Hartung Brothers, Inc (HBI) has acquired Grading assets and farmland in Mexico.

Dan Hartung, President of Hartung Brothers, stated “we are excited to announce that we are entering the Year Round cucumber supplier world”.

- In addition to HBI’s US and Canadian sites we are adding 4 Grading Stations with 6 Growing Regions in Mexico.
- Overlapping Production Areas with 3 geographically diverse regions in production in any given month.
- Planting 52 weeks a year
- Shipping thru Nogales AZ, Eagle Pass & McAllen TX, and Panama City FL.
- Logistics handled with our Sister Company H&N Logistics insuring on time delivery and constant communications.

We look forward to continuing to build on the relationships developed over the years and developing our southern business.

About Hartung Brothers, Inc.

Hartung Brothers, Inc. (HBI), established in 1975 , is a family-owned agribusiness based in Madison, WI.

HBI operates cucumber production and grading facilities in 3 countries, Canada (2 sites), United States (3 sites) and most recently added Mexico (4 sites) for year-round service to our processing customers. The focus of our cucumber business is to provide customers with outstanding quality and now Year Round supply.

HBI operates seed facilities in Madison Wisconsin with production on 100% irrigated land for both hybrid and foundation seed and on the island of Kauai, Hawaii, R&D rows and foundation seed production.

HBI is dedicated to our customers and employees, going the extra mile building lasting long-term relationships.
